Tutoring Experience

With 19 years of experience, I have been dedicated to helping students master their IB Extended Essays. My approach focuses on developing strong research and writing skills, ensuring students can confidently tackle topics across subjects like Economics and Business. I provide step-by-step guidance from the initial idea to the final draft, helping students achieve top results.

In addition to my work with IB Extended Essays, I support students in other curriculums like A-Level and IGCSE, particularly in subjects such as Business and Economics. By offering personalised feedback and structured lessons, I help students improve their understanding and performance in these subjects, ensuring they feel confident ahead of their exams.

Beyond the classroom, I work closely with students on their internal assessments and external exam preparation. My extensive experience with both IB and A-Level programs enables me to offer comprehensive support, guiding students to success in their academic projects and assessments.
