## Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

For the past 9 years, I've guided students through IB Economics, helping them navigate both SL and HL courses. My familiarity with the IB curriculum has allowed me to provide comprehensive support in exam preparation, helping students develop a strong grasp of economic theory and practical application. Additionally, I have tutored students in IGCSE and A-Level Economics, offering tailored instruction to address their specific learning needs.

Beyond the IB curriculum, I also have extensive experience helping students excel in AP Economics and other international courses. I've worked with students globally, from Europe to Asia, ensuring they gain a thorough understanding of economic concepts while preparing for assessments. My tutoring sessions are customised to each student, ensuring they receive targeted assistance in areas where they need the most support.

My students consistently achieve excellent results in their exams, with many going on to study economics at top universities. I take pride in helping students not only improve their grades but also in developing the analytical skills they need to succeed beyond their school years.
