## Tutoring Experience

For the past 8 years, I've worked with students from across Europe, helping them excel in their IB and IGCSE Chemistry exams. My experience includes tutoring in small groups and one-on-one, ensuring that each student gets the individual attention they need to succeed.

Additionally, I've taught A-Level Chemistry and Biology, guiding students through the toughest sections of their curriculum. My goal is to ensure that students not only understand the material but also develop a genuine interest in the subject, leading to long-term academic success.
